

# Through the Eyes of Love

Judy Collins

Through the eyes of love  
I can see you shine  
Take the time to know your mind  
As we grow closer  
See into your heart  
Find a resting place  
Keep the faith, loose all trace of stormy weather  
Changing what I know of love  
For all my tomorrow's, no more sorrows

Through the eyes of love  
We can do anything, miracles are possible  
As long as we're together  
Through the eyes of love  
We can have everything, nothing is impossible  
We'll be unstoppable  
Through the eyes of love

Through the eyes of faith  
We can bear our souls  
Always know we can show  
We trust one another  
Let each other in  
Share our darkest fears  
Hold me near, make it clear  
In time, we'll discover  
How to see the sun

Breaking through the tears of yesterday  
Shining through the clouds  
A rainbow is ours  
I feel the power that love showers

Through the eyes of love  
We can do anything, miracles are possible  
As long as we're together  
Through the eyes of love  
We can have everything, nothing is impossible  
We'll be unstoppable  
Through the eyes of love  
Every time we touch  
We can learn so much  
Every time we touch  
Be sure it's out of love (love is enough)  
Through the eyes of love  
We can do anything, miracles are possible  
As long as we're together  
Through the eyes of love  
We can have everything, nothing is impossible  
We'll be unstoppable  
Through the eyes of love
