

When I Get Over You

Juice Newton

Hell will freeze, love will grow on trees and
Rivers all will run dry
Birds won't sing and the bells wont ring
There will be no stars in the sky

Oh the truth will be untruth
One and one will not be two
I'll do something I'll never do
When I get over you

Moon won't glow and the wind won't blow
There will be no lesson to learn
Life will be too long, right will be all wrong
And this world will no longer turn

Oh the truth will be untruth
One and one will not be two
I'll do something I'll never do
When I get over you

Oh the truth will be untruth
One and one will not be two
I'll do something I'll never do
When I get over you

Oh the blues will not be blue
When I get over you
When I get over you
