

## 3 Times

Juice WRLD

Oh-oh, yeah, woah, yeah  
Murda on the beat, that's not nice

I heard if you look her in her eyes you might die  
Bad bitch, probably make a grown man cry  
Heartbreak bound to leave a nigga traumatized  
She's my drug, I got her personified  
Don't say her name in the mirror three times  
Learned the hard way but that was the last time  
Ended my life, committed her last crime  
Thought that was her last time

I told her that her secret's safe with me  
I told her that her love is all I need  
Her soul, I'll keep, it helps me sleep  
Helps me rest in peace  
Don't know where to go, don't know where I've been  
I been too high off [?]  
Lord knows I don't got any other friends  
I befriended the drugs again  
I fell in love with the plug again  
I pulled it under the rug again  
I'm drowning in a cup full of mud again  
Cross my heart and hope I don't give in

I heard if you look her in her eyes you might die  
Bad bitch, probably make a grown man cry  
Heartbreak bound to leave a nigga traumatized  
She's my drug, I got her personified  
Don't say her name in the mirror three times  
Learned the hard way but that was the last time  
Ended my life, committed her last crime  
Thought that was her last time

Ooh-ooh-ooh-ooh, what do I do?  
This shit's so suicidal  
Percocet in my vitals, oh  
Bible or the rifle, that's all that I know  
Codeine got a nigga mind froze  
Codeine got a nigga time slowed  
The devil in the red dress kills  
It told me not to take the red pill  
I took the red pill and the blue pill  
Last night was too real

I heard if you look her in her eyes you might die  
Bad bitch, probably make a grown man cry  
Heartbreak bound to leave a nigga traumatized  
She's my drug, I got her personified  
Don't say her name in the mirror three times  
Learned the hard way but that was the last time  
Ended my life, committed her last crime  
Thought that was her last time
