

Crazy Love

Juice WRLD

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah

I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up
I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up

Told you that I don't care
When you hit me up
But really I do care
When you show up
You in my mind, bae
When I'm pouring up
Waste all my time, bae
Just don't waste my double cup

Leave this shit behind us
You in my face, you need to back up
Cupid shot in my heart (oh)
I need some backup (up, up, up)

You don't like how I'm acting, hey
This is real, I ain't acting, hey
Love is all about actions, hey
So take action, yeah

I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up
I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up

Yeah, they tellin' me that I'm the next up
If that's the case, then how come I still get no love?
Plug on my phone sayin' he got more drugs
I trust him more than my doctor
This nigga's actors, get him an oscar
Feel like a god, so I fuck on a goddess
I'm the man bitch, I'm through bein' modest

You don't like how I'm acting, hey
This is real, I ain't acting, hey
Love is all about actions, hey
So take action, yeah

I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up

I think it's a plus, you think I'm a minus
Looking at the past, I'll leave that behind us
Sand in the glass, looking at the timer
Tick-tock, tick-tock, babygirl, your time's up

Yeah yeah yeah yeah yeah
I'll that behind us
Yeah yeah
Is a plus, I'll leave that behind us
