

# Drive Me Crazy

Juice WRLD

(Hahahaha, Nick, you're stupid)

My heart's racing even on vacation  
But I'm trying to focus on you, my baby  
I know my past heartbreaks and chances, I'll take them  
It's not hard to tell that you drive me crazy  
My heart's racing even on vacation  
But I'm trying to focus on you, my baby  
I know my past heartbreaks and chances, I'll take them  
It's not hard to tell that you drive me crazy

You know my flaws  
You know all my fuck ups and past mistakes  
Our love is law  
The only law I would never break  
I'll fight for us  
Through bloody nights and through bloody days  
You hate it when my dragon gets out the cage  
All my demons unchain  
But you still don't run away

I thought I'd make this song for you  
To sing along, inspire  
I would kill anything, anyone, everyone for you  
I would slay 'em all down

My heart's racing even on vacation  
But I'm trying to focus on you, my baby  
I know my past heartbreaks and chances, I'll take them  
It's not hard to tell that you drive me crazy  
My heart's racing even on vacation  
But I'm trying to focus on you, my baby  
I know my past heartbreaks and chances, I'll take them  
It's not hard to tell that you drive me crazy
