

# Eye Contact (Look Me In My Eyes)

Juice WRLD

Mmm, look me in my eye  
She don't wanna look me in my eye  
Look me in my eye, eyes  
Yeah, she don't wanna look me in my eyes  
I think I just took her by surprise  
She don't wanna look me in my eyes  
She don't wanna look me in my eyes  
I think I just took her by surprise  
She don't wanna look me in my eyes  
Told her I was telling all the lies  
I told her I was telling all the lies  
She look at me that she was surprised

She told me that her love was do or die  
I told her i heard it a hundred times  
I could really read between the lines  
Yeah I could really see right through the lies  
See right through the lies  
Told her I was seeing through her lies  
And she can't even look me in my eye  
I'm popping all these perkies getting high  
I'm flying through the universe's sky  
She know that I'm not like those other guys  
I told her i heard it a hundred times  
I told her i heard it a hundred times  
Could see right through the lies

Mmm, look me in my eye  
She don't wanna look me in my eye  
Look me in my eye, eyes  
Yeah, she don't wanna look me in my eyes  
I think I just took her by surprise  
She don't wanna look me in my eyes  
She don't wanna look me in my eyes  
I think I just took her by surprise  
She don't wanna look me in my eyes  
Told her I was telling all the lies  
I told her I was telling all the lies  
She look at me that she was surprised

She don't wanna look me in my eyes  
I think I just took her by surprise  
She don't wanna look me in my eyes
