

# Feeling

Juice WRLD

Perc's give me a feeling  
My girl just walked into the building  
Perc's give me a feelin', I feel it  
Perc's give me a feelin', I feel it  
Like, swear to God, yeah

I got a feeling  
Perc's help me feel it, I feel it  
Problems, I numb and conceal them  
Kinda like my feelings  
But I still feel them

I just walked in the building  
Look like a million  
But I'm worth more than a million  
I don't need no Ritalin, I'm focused on the millions  
I disregard civilians  
Until I get a house with a moat and a pavilion

I reek of good vibes  
Smokin' on reefer, I'm high  
Percocet fever  
The type of pill that'll make you scratch  
Until your nails gone  
Yeah, yeah  
Drugs in my head  
You heard what I said  
No five, no ten, no fifteen, twenties  
Just Perc' that is in my meds  
I told my momma I'm here to say  
No, she won't catch me dead  
I'm too much of a idol, nigga, no Ryan Seacrest

Do it by my Vlone  
(This is about you, not me)

I got a feeling  
Perc's help me feel it, I feel it  
Problems, I numb and conceal them  
Kinda like my feelings  
But I still feel them

I just walked in the building  
Look like a million  
But I'm worth more than a million  
I don't need no Ritalin, I'm focused on the millions  
I disregard civilians  
Until I get a house with a motte and a pavilion

Till I get a house with a motte and a pavilion  
Walked into your building  
Nigga, I'm a villain  
Feel like Dragonball, bitch, I'm Goku and you Krillin  
Bickin' back, I'm boolin'  
These niggas be chillin'  
All up in they feelings  
Me, I'm just winnin', W-I-N-N-I-N-G

Boy, it's no "I" in "team"  
But it's an "m-e" in "team"  
I'm mean it's a "me" in "team"  
I know I just fucked up a bitch  
I'm still the freestyle king of all  
Her pussy wetter than olive oil  
My watch cost a hunnid more  
My new girl a Lamborghini  
Your girl a Honda Accord  
Momma tell me I gotta stay focused  
Told her, I am not a Ford Focus  
You notice when I disappear like hocus pocus

I got a feeling  
Perc's help me feel it, I feel it  
Problems, I numb and conceal them  
Kinda like my feelings  
But I still feel them

I just walked in the building  
Look like a million  
But I'm worth more than a million  
I don't need no Ritalin, I'm focused on the millions  
I disregard civilians  
Until I get a house with a motte and a pavilion
