

## Fever

Juice WRLD

Past hoes, comin' back in the present  
Past hoes, comin' back in the present

She wears short skirts, she's a keeper  
She don't love me, I don't either  
No more drugs, I caught a fever  
She don't know me, I don't either  
It's been awhile since I been this gone  
It's been awhile since she turned me on  
Old hoes, comin' back in the present  
Open up like a present  
It's been awhile since I sang this song  
It's been awhile since I hit your phone  
Past hoes comin' back in the present

She don't love me, she say I'm a loser  
How can I lose, when I fucked on my tutor  
I told her, to hold my Ruger  
Cause when twelve comes, she'll be the loser  
It's been awhile since I've seen your face  
It's been awhile since I've been this wasted  
Lookin' in the mirror and I'm startin' to see my enemy  
It's been awhile since I've been this wrong  
It's been awhile since you've turned me on  
Liquor bringin' memories  
Tryna fight the devil for some inner peace

She wears short skirts, she's a keeper  
She don't love me, I don't either  
No more drugs, I caught a fever  
She don't know me, I don't either  
It's been awhile since I been this gone  
It's been awhile since she turned me on  
Old hoes, comin' back in the present  
Open up like a present  
It's been awhile since I sang this song  
It's been awhile since I hit your phone  
Past hoes comin' back in the present
