

# Ghost

Juice WRLD

(Uhh)

Spend a couple of nights

(Rocky going crazy!)

I go out when the sun goes down because I wanna

The only girl that can make me smile is marijuana

I go out when the sun goes down because I wanna

The only girl that can make me smile is marijuana

And I'm drinkin' until I drown, lean pour up

I'm so high I'm a ghost like I'm not even there

I go out when the sun goes down because I wanna

The only girl that can make me smile is marijuana

And I'm drinkin' until I drown, lean pour up

I'm so high I'm a ghost like I'm not even there

Ain't no Netflix and chill, it's just Netflix and pills

I'm off two morphine still, she neck me, I can't feel

Relapse shit got me cold, fell in love with Moncler

I'm so high I'm a ghost, like I'm not even there

Overdose but I live, the blessing for real

God on my line, asking me, "What's the deal?"

God on my line, asking me, "What's the deal?"

Young, blessed, and mist as fuck, I'm asking him to chill

Now I'm cursed, so I'm gon get what I get (Yeah)

My enemies, they pray for me, that's how you know it's getting real

My enemies, they pray for me, that's how you know it's getting real

I guess I question a lot now, I'm looking for answers

Looking for drugs is just like looking for cancer

In the end I guess everybody is dying

In the end I guess everybody is dying

In the end I guess everybody is dying

I go out when the sun goes down because I wanna

The only girl that can make me smile is marijuana

And I'm drinkin' until I drown, lean pour up

I'm so high I'm a ghost like I'm not even there

I go out when the sun goes down because I wanna

The only girl that can make me smile is marijuana

And I'm drinkin' until I drown, lean pour up

I'm so high I'm a ghost like I'm not even there
