Juice WRLD

(Same to me, same to me)

It's the same to me, same to me
Girl, you can never leave, never leave
Girl, we can never breathe separately
The potency of codependency
You're in my lungs, I'm zoned out (Yeah)
Your name on my tongue, I scream out (Oh, yeah)
You're the one, love me 'til I'm gone

Got me movin' slow now
Lean got me on a whole nother' level
Go to hell and meet a whole nother' devil
VVS is on a whole nother' bezel

Black sabbath with the ozzy
I feel like a rave with the molly
We could hit a train on your bitch everyday that's a trolley (Yeah)

I ball on my own (I ball on my own)
I never asked for handouts
I never asked for handouts

It's the same to me, same to me
Girl, you can never leave, never leave
Girl, we can never breathe separately
The potency of codependency
You're in my lungs, I'm zoned out (Yeah)
Your name on my tongue, I scream out (Oh, yeah)
You're the one, love me 'til I'm gone

They sayin that I'm clever (Uh)

Mixed the Perky with the Xanny, that's for comfort

It's the same to me, same to me
Girl, you can never leave, never leave
Girl, we can never breathe separately (Separately)
The potency of codependency
You're in my lungs, I'm zoned out (Yeah)
Your name on my tongue, I scream out (Oh, yeah)
You're the one, love me 'til I'm gone

I ball on my own (I ball on my own)
I never asked for handouts
I never asked for handouts
I never had my hands down

I ball on my own (I ball on my own)
I'm numbin' on the Percs now
I remember throwin' Xans down
