Uh, huh

I've been going through a lot but I just gotta stay focused  
High as a bitch, off the Percs like oh shit  
In too deep with this life shit, ocean  
I don't got time for this stress and the commotion  
I know like you know, life comes with obstacles  
See it through my opticals, illusions be optical  
Recently had a relationship, I think her love was optional  
Ain't no way to fix the shit she did, suffer the damage, ho  
We used to go by Lake Michigan to go shopping, oh  
Now I'm fuckin' with a new vibe

Okay, I'm sorry, my apologies  
I have no room to talk, that's hypocrisy  
Okay I'm sorry-sorry, my apologies  
I have no room to talk, that's hypocrisy, hey, ayy

Grateful, give me a reason to be grateful  
I got a reason to be hateful  
Yeah, I struggle with my hatred, how can you blame me?  
I'm not tryna rain down on your parade now  
But I think I'm gonna rain down on your parade  
On your parade, on your parade  
Grateful, give me a reason to be grateful  
I got a reason to be hateful (Hateful)  
I struggle with hatred, how can you blame me?

I'ma bring the pain down on you  
Bring the pain down (Down)  
I'ma bring the pain down on you  
Bring the pain down, uh  
Okay, I'm sorry, my apologies  
I have no room to talk, that's hypocrisy  
Okay I'm sorry-sorry, my apologies  
I have no room to talk, that's hypocrisy, hey, ayy

Thankful, reason to be thankful  
I've a reason to be thankful  
Taught me a lot of things so, thank you, thank you  
Ungrateful, you had no reason to be ungrateful  
All the things I did, I deserve a "Thank you"  
But all I got was an "I hate you"  
And I could easily replace you  
Well you should be thankful  
This is real love, I am not a prankster  
My fault, it was real love  
That's in the past tense  
That's where I'ma leave it  
That's when I'ma leave
