

Another life, another day, another blunt
Another day, another life, blunt
Another, another, another day
Another life, another

Another life, another day
Another chance to make it great
I'm early to the money all the time
So I can never be late
Just me and my bitch
Even though she drive me crazy
She still make my day

Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Back on my bullshit, devil emoji

Goin' through emotions, muddy emotions
Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Back on my bullshit, devil emoji

Boat rockin' back and forth
What's the commotion?
It told her I'ma drown in her
That bitch a ocean
If I can't make her smile, I'ma be actin' wild
She got a new man
I'ma pull up on him and shoot him down

I been goin' through the motions
Bloody emotions
Pour me a cup, I'ma nod out
Started back smokin'
Good dope rollin'
Maybe Mary-Jane'll help me put the pills down

Dead inside, catch a look at my Ghost
I'll pull up in a Lambo', a 'Rari, a Rolls
Got my girl by my side and they callin' us ghosts
Numb the pain, take these Perc's in the mouth and the nose
I'm not a drug addict, got it all wrong
I'm just a love addict till my heart gone
I'm just a love addict with the love songs
You with me is where you belong

Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Back on my bullshit, devil emoji

Goin' through emotions, muddy emotions
Goin' through motions, muddy emotions
Goin' through motions, muddy emotions
Back on my bullshit, devil emoji
