

# Long Gone

Juice WRLD

God, oh god Waynes  
Now we cookin' up (yeah)  
Leave her in the past but I know I'll miss her  
I kept all of her paraphernalia  
Left her makeup in her panties on my bedroom dresser  
Think about the days when I used to undress her

Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long, gone

Sorrow and sadness next to me  
Old hoes see that I'm mournin' so they textin' me  
Ex bitch tryna finesse me, she won't get a damn thing  
Listen to my story that's depressing  
Heartbreak mixed with the drugs not the best thing  
Devil trying to test me, I'm failing, inhaling  
You took it all back  
All that heartbreak, that was a year ago  
Wanted you back, so bad, but that's

Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long, gone

What you don't seem to understand is  
You really took my love for granted  
You really had me feeling helpless, that's so selfish

Haven't been in love in a long while  
Wait until my next girl finds out  
Then I'm scared we gon' break up and fall out  
Drownin' in my thoughts baby looking for a lighthouse  
Ain't no sleep I been feeling like a night owl  
Music turned up, neighbors telling me to pipe down  
On the other hand I think I found my future wife  
But she not here with me so it get lonely at night now

I hope, her love doesn't go away  
I hope this ain't a phase  
One more heartbreak and I'll be

Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long, gone

Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long gone, long gone, long gone  
Long, gone

Leave her in the past but I know I'll miss her  
I kept all of her paraphernalia  
Left her makeup in her panties on my bedroom dresser

Think of the days when I used to undress her
