

Make Believe

Juice WRLD

I figured she was gonna break my heart regardless, regardless

I figured she was gonna break my heart regardless
So I took her out and dumped her in the garbage
The stupid bitch then turned herself into a target
Click clack

She was gonna break my heart regardless
So I took her out and dumped her in the garbage
The stupid bitch then turned herself into a target
Just for talkin' nonsense
Claimin' she was leavin'

Not gonna happen
If I can't have you, no one can
'Cause if you leave, I'm not breathin'
Show you how first to not breathe, breathe

Inhale, exhale
You're the best, well, you're the worst
But you're the best
Hell, I ain't never, ever gonna lose, lose
Tell me what I gotta do to prove to you
Five seconds from losing my head
Now it's time I show you what a lunatics do

She was gonna break my heart regardless
So I took her out and dumped her in the garbage
The stupid bitch then turned herself into a target
Just for talkin' nonsense
Claimin' she was leavin'

She was gonna break my heart regardless
So I took her out and dumped her in the garbage
The stupid bitch then turned herself into a target
Just for talkin' nonsense
Claimin' she was leavin'

Hate it when you tease
Where you think you're goin'?
Were you comin' back to me?
You walked in, I'm listenin' to Stan on E
Yeah, ecstasy
Matter of fact, there's a bridge that my car wants to meet
Road trip on me
It'll be fun, you'll see
But you don't gotta sit in this trunk
You can sit next to me
Me and Stan, we alike, but he ain't nicer than me
He was drunk-drivin'
Me, I'm just straight Percules
My crazy thoughts and your crazy heart
As we hit the bridge, that's just the start
Not afraid to die, as you can see
Life isn't real, love's make-believe

My crazy thoughts and your crazy heart

As we hit the bridge, that's just the start
Not afraid to die, as you can see
Life isn't real, love's make-believe
