Shout to young Cardo, shout out to Cardo  
Cardo got wings  
Uh

Oh, no, no  
Too much on my mind feel like I'm 'bout to overload  
Life's too hard, I take the easy way and overdose  
Too many ups and downs, this a rollercoast'  
I was born to drown, I was born hell-bound  
My back to the world as it all burns down  
Yeah, my heart was good, until I found out  
Ain't no such thing as good anymore

Being optimistic is a waste of time, uh  
One thing about time, you ain't wasting mine  
Ain't no saving me, I know my heart cold  
Blame it on the weather and the narcos  
Take my breath, take my heart, take my soul, nothing left  
I got cash, but I can't take that with me after death  
You can't tell, bitch, I'm stressed, I been feeling like a mess  
I been feeling like a wreck, 911, I'm in distress  
There's a hole in my chest  
There ain't nothing left  
But I'll try my best, to be the best, uh

Oh, no, no  
Too much on my mind feel like I'm 'bout to overload  
Life's too hard, I take the easy way and overdose  
Too many ups and downs, this a rollercoast'  
I was born to drown, I was born hell-bound
