Juice WRLD

Hahaha

Every Soundcloud nigga wanna pop a lot of Xanax  
And have a girl that they can just cheat on all day  
And just hold they gun that they not gon' use, ever  
When they pop out to Adam22's store and shit, like  
Y'know what I'm saying? Hahaha  
I got-, I got a hunnid dollars for you bro, play my shit on you  
r livestream fo' (Haha)  
I'm high and it's all my fault (Haha, go, go, uh)

Uh, I'm high and it's all my fault (It is)  
It ain't a surgery in the world that'd fix my flaws (Uh-huh)  
These pills like novocain, 'cause I can't feel my jaw  
Also can't feel my brain, they tell me that's the cause  
But I know that they wrong  
That's the reason I've been medicating all along  
Yeah, everyday live life like a celebration, tryna numb  
What's the cause?  
I'm tryna find a way out

It's getting boring counting all these bankrolls  
When money ain't the only thing that don't fold  
Live by the moment  
Trapped in my mind, I'm stuck frozen  
This light of mine has dim moments  
Everybody in my ear saying I'm chosen  
It's too much pressure  
How can I breathe when all this pressure is leaving me breathle  
ss?  
Too many demons putting in too much effort (Uh)  
Too many reasons for me not to be together  
Too, too, too many demons putting in too much effort  
I hope this don't go on forever, uh

Uh, I'm high and it's all my fault (It is)  
It ain't a surgery in the world that'd fix my flaws (Uh-huh)  
These pills like novocain, 'cause I can't feel my jaw
