Right now

She say I'm a dog, bitch I bite down
I be with my dogs, bitch we bite down
Please don't run up, got it on me right now
Please don't run up, got it on me right now
She say I'm a dog, bitch I bite down
I be with my dogs, bitch we bite down
Please don't run up, got it on me right now
Please don't run up, got it on me right now

Bitch right now

Mike Tyson, KO with the lights out
Take your bitch out, all the way out
Laid out baby, case you stay out
I don't got time for the cake house
I'm too busy runnin' on the cake route
Bitch I'm royalty, you better bow down
Run up, that's okay I got it on me right now
I got it on me, but I'm still by my lonely
That's yo bitch if she want me
She just want my Givenchy
