

# Rush

Juice WRLD

I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it (yuh)  
I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it

Kinda fucked up how we fuckin'  
You gettin' choked out, and you love it  
We too busy focused on depression  
Damn, I can't really focus on depression  
Damn, I ain't know that you were such a druggy  
It's ironic cause you're the one that's addicting  
It's ironic cause you're the piece that I'm missing  
And you say that I'm the piece that make ends meet  
Damn, still gettin' no peace, Still gettin' no sleep  
Everytime you work for me, promise you won't play with me  
They told me to stay away, I told you to stay with me  
Pack your bags, pretty ass, come live in LA with me

I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it (yuh)  
I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it

I know how you feel  
I've been through it too bae  
But I want this for real, for real  
I don't want a new bae  
It's just me and you bae  
I'm thinkin' bout you bae  
While I'm in the stu, bae  
If a nigga try it, you know I'm gon' shoot bae  
He gon' end up dyin'  
He fuckin' with you bae  
Maybe I was lyin'  
When I said it was just you  
Maybe I got a few bae  
Or maybe it's just you, bae  
But don't get it confused, bae  
I love you bae, I love you bae, I love you bae

I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it (yuh)  
I don't wanna rush  
But I already rushed it, so fuck it  
I know that it's love  
But I'm also lost, and I love it
