

Shadows

Juice WRLD

When I walk in the room
They don't know what I see with my eyes closed
They don't know what I see with-
They don't know what I see with my eyes closed
They don't know what I see with my eyes, closed
They don't know what I see with my eyes closed

They don't know what I see with my eyes closed
They don't know what I see with my eyes, closed
I party with the shadows on the low, low
Cause you ain't ever see them in my photos
Walk in the dark
Are you afraid of the dark, cause I'm not
Walk in the dark
Are you afraid of the dark, cause I'm not
Walk in the dark, walk in the dark
And pray to god them demons don't tear me apart

Catch me walking through the graveyard
Looking for my fallen ones, they're in the stars
Ooh, that gives me a heavy heart
Fortune teller got a nigga pullin' cards
Like is it my time to go I don't know
My life flashes before my eyes
I got the grim reaper all on my phone
I'ma hit him with a decline
But for now, let's take a codeine ride
Pinkies in the air, like tea time
I sit back in my seat it feels like I'm taking my last breath

They don't know what I see with my eyes closed
They don't know what I see with my eyes, closed
I party with the shadows on the low, low
Cause you ain't ever see them in my photos
Walk in the dark
Are you afraid of the dark, cause I'm not
Walk in the dark
Are you afraid of the dark, cause I'm not
Walk in the dark, walk in the dark
And pray to god them demons don't tear me apart

And pray to god them demons don't tear me apart
