

# Slasher

Juice WRLD

Southside on the track, yeah

Damn, mayday, mayday, I need backup  
She broke my heart, that bitch a slasher  
In the meantime, I been runnin' the racks up  
In the lean time, I been pourin' that Act' up  
Mayday, mayday, I need backup  
She broke my heart, the bitch a slasher  
In the meantime, I'll be runnin' the racks up  
In the lean time, I'll be pourin' that Act' up

She turned me to an activist, Actavis  
She told me that she broke my heart on accident  
We California-catin', that's my residence  
I'm turning into Satan, kill the evidence  
I fall in love easy, that shit evident  
I'm takin' codeine with all my medicine  
She doin' morphine to numb the pain again  
Feelin' like Prince with Purple Rain again

I say the right things at the wrong times  
Her head's fucked up, snort the wrong lines  
Remember when you said you were all mine?  
"All mine" turned to all lies (All lies)

Damn, mayday, mayday, I need backup  
She broke my heart, that bitch a slasher  
In the meantime, I been runnin' the racks up  
In the lean time, I been pourin' that Act' up

Damn, mayday, mayday, I need two cups  
I get so damn high, I don't feel much  
I say, "Kids, do drugs, but don't do too much"  
Last time I heard that, I did too much  
Too much isn't enough, I'm not giving a fuck  
I'm done believin' in love, yeah, I'm givin' it up  
I fell in love with the lean, shit be slowin' me up  
But keep on pouring me up until the pain numbs it  
I'm popping perkies until I throw up  
You don't know me, you may know of me  
So what? I'm giving no fucks  
Say you got real love  
I say, "Bitch, show me"

I say the right things at the wrong times  
Her head's fucked up, snort the wrong lines  
Remember when you said you were all mine?  
"All mine" turned to all lies (All lies)
