

Too Far

Juice WRLD

I took it too far, she was my getaway broad
I need a getaway car, I need to get away far cause
I took it too far, she was my getaway broad
I need a getaway car, I need to get away far

I'm taking two bars, now im on mars
I took it too far, im taking your heart
You dont play your part, you dont play your part
Know I dont play fair but I dont play hard
(I took it too far, I took it too far, you dont play your part)

I took it too far, she was my getaway broad
I need a getaway car, to get away far
I took it too far, she was my getaway broad
I need a getaway car, to get away far
I took it too far to where ever you are
Where ever you are, dont take it too far

Ive been going to hard, tryna get yo attention
I know that you feel relentless
Ive been feeling restless, cause i took it too far
Where ever you are
