

I heard if you look her in her eyes, you might die
Bad bitch prolly make a grown man cry
Heartbreak bound to leave a nigga traumatized
She's my drug, I gotta personify
Don't say her name in a mere 3 times
Learn the hard way, but that was the last time
Endin' my life, committed her last crime
Thought that was her last time

I told her that her secret safe with me
I told her that her love is all I need
Her soul, I'll keep it, helps me sleep
Helps me Rest In Peace
I've been to high off [?]
Lord knows I don't got any other friends
I befriended the drugs again
I fell in love with the plug again
I put it under the rug again
I'm drownin' in a cup full of mud again
Cross my heart and hope I don't give in

I heard if you look her in her eyes, you might die
Bad bitch prolly make a grown man cry
Heartbreak bound to leave a nigga traumatized
She's my drug, I gotta personify
Don't say her name in a mere 3 times
Learn the hard way, but that was the last time
Endin' my life, committed her last crime
Thought that was her last time

Ooh, ooh
What do I do, this shit's so suicidal
Percocets, in my vitals
Bible of the rival, that's all I know
Codeine got a nigga mind froze
Codeine got a nigga time slow
The devil in the red dress kills
They told me not to take the red pill
I took the red pill and the blue pill
Last night was to real

I heard if you look her in her eyes, you might die
Bad bitch prolly make a grown man cry
Heartbreak bound to leave a nigga traumatized
She's my drug, I gotta personify
Don't say her name in a mere 3 times
Learn the hard way, but that was the last time
Endin' my life, committed her last crime
Thought that was her last time
