

## Work Out

Juice WRLD

What else did they give you to drink?  
So that's not drink?  
No, I said, "What else did they give you to drink?"  
Uh, Bacardi  
Oh, see that's why, you're out here mixin' shit (Haha)  
Clear and clear though, you ain't heard this shit  
That's not how that works my love, haha  
I miss you  
I miss you  
For real?  
No, for real, for real  
Oh  
I wanna be there  
Haha, I wanna be there  
Ooh, I wanna be there  
Mute yo' self for a second

Girl come to me, come to me  
I'ma come to you if you don't come to me  
I'ma eat it good, girl, you better cum for me  
It's just me and my tongue, tryna keep you company  
I can't hold my tongue, baby, I think you're the one  
This is a lot to say at once, uh  
You probably think I'm dumb, I'm sayin' this shit too soon  
Take your Xannies to this song  
I'm off the Percs, I'm gone, wrong  
I've been drinkin' strong, tryna leave the pills at home  
I feel like I live in Hell, but for you I'm thankin' God  
Maybe he sent you to me, that's what I'm tryna find out  
I put the Percs down, hopefully it work out  
Fit body, you work out, I hope we work out-out-out

Ain't no timeouts, all night, don't tap out  
Last time you tapped out, in the pussy, I black out  
I really like you, wait 'til the love come 'round  
'Cause when my love is involved is when it all goes down  
Make you tap out, uh, blow your back out, uh  
Got you tired, tired, tired, put them Xans down, oh  
You get me higher, higher, higher, put them Percs down  
Teach me what you know baby, give me a work out  
I'm a freak, in the sheets, I'm a freak, I'm a geek  
Don't take this brain from me, I'ma need that brain for keeps  
You could be my main thing, ain't no sides  
Pickin' sides, you and I  
You got me, you got my love for free, baby  
That's a guarantee, baby  
Spread your legs, I'll feast, baby  
Wake you out of your sleep, baby  
You know I don't get sleep, baby  
Let me fuck you to pieces

Baby come to me, come to me  
I'ma come to you if you don't come to me  
I'ma eat it good, girl, you better cum for me  
It's just me and my tongue, tryna keep you company  
I can't hold my tongue, baby, I think you're the one

I want to explore you, uh  
Girl, let me adore you, uh  
I don't want to annoy you  
I've been fiendin' girl, I want to sexually destroy you, uh  
Up in the shower, we ain't have no lights  
Next time, girl, ride it like a bike, fuck it, ride it all night  
You got that mindset that I like, uh, you a ride-or-die  
I'm drivin' myself brazy, fantasizin' about last time, uh, uh  
Got a couple of homies in here  
I know you can smell the love in the air  
Told them to get them hoes outta here  
If I don't take Percs then I feel scared  
Not when you right here, when it comes to you, I care  
When I'm not with you, don't nobody talk to me, don't dare

Girl come to me, come to me  
I'ma come to you if you don't come to me
