

## A Man

Juicy J

I'm untouchable nigga and I'm never gon' leave  
None of my niggas behind, I'ma bring 'em with me  
Draco sitting in the book bag  
None of my niggas gotta cook crack  
All my niggas litty and my bitch something to look at  
Niggas hating too much  
I come through I'm too clutch  
A man, a man, a man all this blessings all this new love  
Nigga that bounces back, they can't handle that  
I got my own shooter ain't no comin' back from that  
I could never fold, why would I surrender?  
I got options nigga, you just a imposter nigga  
You should pay attention, look at how I'm livin'  
I can go spend seven figures and I wouldn't miss it  
I'm just sucker free  
She just love the D  
She know I'm that nigga  
That's all she know 'bout me  
She know I keep the heater, right there on the seat  
You should listen to her when she say don't fuck with me  
A man

People tryna say I'm only into me  
Got a code with my dawgs, can't get in between  
I can't give them life, no more energy  
Man, man, a man  
Spent 'bout sixty on the time, I can't even lie  
No way in, no way out, this shit do or die  
So I roll, when I roll, must be suicide  
A man, man, man (yeah!)
