

Already

Juicy J

Security fucked up let me bring the zippy in
You bitch missing we both missing we both disappear
If I pull up in that Phantom she gon' disappear
If I pull up in a Phantom we gon' disappear

She's drunk already
I'm lit already
What you mean roll up
What you mean burn up

Let's talk money shit I'm rich already
Let's get freaky baby call me Robert Kelly
I'm at [?] watching bitches shake their jelly
Weed and Liquor make her look like Halle Berry
I'm lit don't worry no panties
Let them kids stay with their granny
This dick you about to swallow save that fuck shit for your marriage
Ho I'm Juicy J, to fuck me is a dream
Ziploc full of trees hypnotize your mind then I leave
Money over hoes by any means, mean
Eight hundred thousand in jewelry I got Egyptian needs
Grab my Phantom keys, pour me a little lean
You niggas out here saving thots I share them with the team
Fuck boy

Already told you niggas that I ain't gon' play
Already told my ho she better stop complaining
Damn that nigga already got that shiny bezel
Told that nigga I'm already on another level
Local thotties at this party already bopping
I just walked in thirty seconds getting topped of
God damn why I keep on shaking niggas hot sauce
Pull up in that new Camero I just left that sky loft
I promise I've already sipped
Woah, I told your ho come take a trip
If she bite them I know I'm fucking
If she hop inside the passenger I know I'm busting
