

# One Thousand

Juicy J

Yo!

My lil bruh Wiz just uh

Poured me some champagne, appreciate that bruh

I first pissed some real shit man, you know what I'm sayin so uh, you know

We trippy

Getting fucked up

You know what I'm sayin?

Roll em up, pop em up

Roll em up, pop em up

Roll em up, pop em up

That the bidness, get the bidness up

Trippy niggas

Real shit, real shit, let's get it

Scared young nigga let me put you on to the game

Fuck do you think they know? Make sure ain't nothing lame

No trickin a nigga, don't trip at a nigga

A nigga might come back and bust all you niggas

And these hoes shy, make sure you get the prize

Before you roll the dice

Ratchet ass hoes

Pocket full of money, know a lil something

Life getting silly, you get mo fo a bundle

Take it from me pimpin, me I'm like forgive it

The way I hear we don't consider that lyrics

Fuck that bitch, mistreat that bitch

Say it again, say that shit again

If they start killin give em the barrel end

Give your all again, and this will never end

It's the different kind but have me for a man and a pimp

Our beach half full of these niggas getting sick

I'm so turnt up I won't turn down

Not that Charlie Brudges so don't play with me

Guns like roommates, they stay with me

Plenty goons and they gon spray with me

Nigga I'm 1000, I'm a stay a G

Nigga pick the wrong day for they fuck shit

He mustn't heard I'm bout that fuck shit

Baby choppa, fresh out the bars nigga

You was hard then now you actin box nigga

I'm on the beam, I wanna pop a nigga

I blink my eyes, my youngin shot the nigga

Ballin on these haters, I don't need a GM

Shootin shootin at yo ass, like do a rim

Put yo ass up like you took a swim

Choppa chop em down, call him a lim

Trippy ass niggas turnt up OG

Killers finding where you live then they going in

Run up in yo shit, take yo presidents

Give everybody no evidence

North niggas, we don't talk, we a mug a bitch
