

Party

Juicy J

It's the first in the month in the club I'll...
I got money in my hands, I like to watch the dance!
Open up that, open up that, open up that drink!
Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up,
Since we party, since we party, party!
Damn son!
Where is you part now!

It's the first in the month in the club I'll...
I got money in my hands, I like to watch the dance!
Grow our party...
And I'm always on a... act like Jessie James.
Man I love... I'd like to screw my fans,
I'm a let her get me... do it with no hands!
I'll keep her burning in my pocket and...
And if you violate me I'm a pull the trigger, man!

Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!
Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!

Standing on the furniture...
I don't need it, I don't feel it...
Cause it's covered up,
We got the whole club covered up!
Killers... you see them, we see them...
Me in VIP I got a...
I'm intoxicated cause around me they started doing up,
Get them out of here! My gang give me a new boss!
... haters like a free...

Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!
Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!

Looking like every day's my birthday,
Come home Max, it's time to kill him in the worst way!
What you want, dick?
Well, let me sabot you,
Now I'm in the club, there's no... like the... do!
... louder than the opera do,
And if she says she don't like me then she probably do!

And where the club is, she gonna wait for me?...

Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!
Open up the drink, put that in my cup,
Standing on the furniture, now we're turning up!
Since we party, since we party, party!
Damn son!
Where is you part now!
