

## Sometimes

Juicy J

Play me some pimpin', mane  
Have you ever been in a situation, or you was in some trouble, needed  
somebody to talk to and nobody was there for you?  
They wasn't answerin' the phone, wasn't answerin' they emails  
When you called nobody was around, shit sad

Sometimes you gotta see for yourself  
When it's nobody there, not even people you helped, yeah  
See for yourself, what's gon' happen when the cash gone?  
See for yourself, what's gon' happen if you don't last long?  
Sometimes you gotta see for yourself  
When it's nobody there, not even people you helped, yeah  
See for yourself, who gon' help when the rent late?  
See for yourself, what's gon' happen when you get straight?

Shorty facin' three cases and they all maxed  
Now you see why I told you to fall back  
His Air Force energy was all black  
Prosecutors finna make him take a long nap  
Head down at his sentencin', he didn't budge  
Them type of numbers make you run and dot at the judge  
If I ain't see if for myself I wouldn't have a story  
If it ain't real shit, take me out the category  
If it's business we stand on then it's mandatory  
If I ain't got it for my kids who gon' have it for me?  
I had to see it for myself to know who wasn't for me  
I let you see it for yourself, I went from rags to glory

Sometimes you gotta see for yourself  
When it's nobody there, not even people you helped, yeah  
See for yourself, what's gon' happen when the cash gone?  
See for yourself, what's gon' happen if you don't last long?  
Sometimes you gotta see for yourself  
When it's nobody there, not even people you helped, yeah  
See for yourself, who gon' help when the rent late?  
See for yourself, what's gon' happen when you get straight?

Only time will tell who really friend or foe  
Now you see for yourself like some Apple Vision Pros  
If you run outta money then you gon' run outta hoes  
'Cause ain't no gold diggers comin' when you outta gold  
Can you stand the rain, true colors gon' show  
I let 'em hang themselves, all I did was bring the rope  
Tell a nigga no, true intentions get exposed  
For the root of evil niggas quick to sell they soul  
For a couple dollars niggas turn it on they bro  
Your homie crossed you out, see you at the crossroad  
Keep your eyes open, you gon' peep all the signs  
To be successful you gon' have to leave some people behind
