

# Workin' Hard

Juicy J

I been working, working, working, working hard  
Every, every, every, every day, day, day  
I been working, working, working, working hard  
Every, every, every, every day, day, day  
Working, working, working, working hard, working hard  
Every, every, every, every day, day, day  
Working, working, working, working hard, working hard  
Every, every, every, every day, day, day

I been working, working, working harder than a bitch  
Got my homies with me balling, you can call that an assist  
Watch me kick some dope shit  
Like its all in a wrist  
I might trip yo girlfriend, bet she fall on the dick  
I got goonies, I got shooters on standby  
Watch how quick I pull up like a landmine  
I just broke up off my lil shawty, 90k like it ain't shit  
Told her bring me back a pound of kush, and she can keep the rest  
I got roaches in my ashtray, I'm bugging  
Make yo bottom bitch wipe my kicks, if I scuff em  
There's big money talking, nigga quiet down and listen  
My bad I keep forgetting, you too broke to pay attention

Running out of room, gotta count it on the floor  
Need a money counter cuz my thumbs getting sore  
Thumbing through the check, frostbite on my neck  
Girl all in my lap, I'm trying not to wreck  
2 hunnid on the gadgets this a car or a jet  
Shit I'm on some fucking fire, you stand too close you break a sweat  
Double cup up in my Aston Martin Prado  
Out in LAX, just leaning like a cholo  
And I got the iron on me, bitch I'm never solo  
Watch how quick I throw a bullet at yo ass, Tony Romo  
Rich nigga talking you need to quiet down and listen  
God damn I keep forgetting, you too broke to pay attention
