Now is the time to recognize  
Now is the time to legalize  
Now is the time to monetize  
Rationalize decriminalize (commercialize)

Sell it and tax it and organize  
Cash it and push it and monetize  
Grow it and show it and specialize  
Open the door, open the door

You put it in a, put it in your hole  
You put it in a, put it in your throat  
You put it in a, put it in your mouth  
Cuz you love Yerba

And you put it in a, put it in a tea  
You put it in a hot cookie  
And you put it in a sweet brownie  
Cuz you love Yerba

Yerba, Yerba  
Yerba, Yerba  
(Yerba)

(Yerba)

All day blowing on  
(Yerba)

I'm bout my bread like burgers  
All day blowing on Yerba  
Bought my side bitch double D's  
And it's soft as a Serta  
Met her on the gram  
My joint weigh 3 grams  
Get her higher than a flight attendant  
I'm gettin head when we land  
Party til 5am  
Double parked in a Lamb  
Ok bitch, I'm bored  
Now it's time to go back to your man

Still going, no stopping  
Afterparty in the lobby  
Careful with that champagne  
This shirt from Versace  
All this loud, that's medical  
Breakfast, I eat edibles  
All day, wake & bake  
Airport I might vape  
V12 let's race  
Two hundred on the dash

Hundred pounds in the stash  
Paper planes and no jet lag, bitch

Paper planes and no jet lag, bitch

Hundred pounds in the stash  
Paper planes and no jet lag, bitch

Yerba, Yerba  
Yerba, Yerba

Open the door, open the door

And I put it in your cookie, put it in your cake  
I like when I smoke and I can't feel my face  
I like to hit the pipe  
It makes me high all night  
It makes me high all night  
And when I roll it right  
So nice and tight  
Got a cookie in the oven all night  
And when I do it right  
So thick and tight  
Got my cookie in the oven all night  
Some tea for the brain all night  
It's gonna be a long long night  
Got a cookie in the oven and cake in the oven and  
Tea for the brain all night

Yerba, Yerba  
Yerba, Yerba
