

24 Hrs

Juke Ross

24 hours and I think we left the radio going
You must have powers and with one chance we can change the world
Be my sunflower when outside is a rainy storm

I still can't retrace the way you made it to my heart
Really have to say darling the way darling you hold my hand
I really can't escape darling your taste darling since you came
my way
These 24 hours hmmm
24 hours and hmmm

24 hours and lipstick still on my tongue
We'll dance in the showers and
When we dance we'll tear it down
Joy ride in the clouds and
In our eyes we'll be the blazing sun

Still can't retrace the way you made it to my heart
Really have to say darling the way darling you hold my hand
Really can't escape darling your taste darling since you came m
y way
In 24 hours and hmmm
24 hours and hmmm

When I looked into that left eye that first time couldn't let y
ou know
That you could make my heart smile with that bad style asking y
ou for more
Little mama brought the white wine and the good vibes
Knocking down my door
She say she looking for a rough ride with her road lights
Only heaven knows

That I still can't retrace the way you made it to my heart
Really can't escape darling the way darling you hold my hand
Really can't escape darling your taste darling since you came m
y way
In 24 hours and hmmm
24 hours and hmmm
