Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey

Say that you'll come and that you'll never go
Traces of liquor on my breath is so
Loud that you kiss me and tell me these things
You are around me and I am with sin
Work days were tough and we love to complain
I make a mean living not saying I'm saved

Why do we argue and get so loud
Why do our lips try to run our mouths
Remember I'm a first who is not your friend
You're willing to witness my love again

Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey

Now out of the lateness I run to prepare
Never so nervous that I made a mess
And always so mindful of your little ways
I've reduced it to just one smoke a day

Why do we argue and get so loud
Why do our lips try to run our mouths
Remember I'm first who is not your friend
You're down to witness my love again

Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey
Hey hey hey hey hey

Baby I loved to love ya
Lay your head on my pillow
Baby I loved to love you
You can count on one we'll go
Baby I loved to love you
We're both rebels on the low
