

# Higher

Juke Ross

Steadily down the road  
Tryna reach where we goin'  
Underneath I've been cold  
But your vibe, it keeps me warm  
Not bleedin' anymore  
Feel my feet movin' forward  
Not fightin' anymore  
Can you stay until the morn?

One, two, three, the time goes by  
Rivers flowin' down the line  
Will we try, and will we fade?  
Lookin' back on yesterday  
We can dance and we can sail  
Into seas for holy grails  
If we crash in like the waves  
I'd do it anyway

Can you take me higher?  
Higher than I've ever been  
Throw my world right in your fire  
Can you take me higher?  
Feel myself again  
Be the light in my desire

Can you take me... higher?  
Can you take me... higher?  
Can you take me... higher?  
Can you take me higher?  
Can you take me higher?

It's so peaceful lovin' you  
'Cause you take away the blue  
I'm divin' into you  
Rewritin' all the rules  
Yes, you find me when I'm lost  
In the darkest of my thoughts  
Divine with your love  
Diamond in the rough

One, two, three, the time goes by  
Rivers flowin' down the line  
Will we try, and will we fade?  
Lookin' back on yesterday  
We can dance and we can sail  
Into seas for holy grails  
If we crash in like the waves  
I'd do it anyway

Can you take me higher?  
Higher than I've ever been  
Throw my world right in your fire  
Can you take me higher?  
Feel myself again  
Be the light in my desire

Can you take me... higher?

Can you take me... higher?  
Can you take me... higher?  
Can you take me higher?  
Can you take me higher?

Can you take me—  
Can you take me—  
Can you take me—  
Can you take me higher?  
Can you take me higher?
