

Hold On .

Juke Ross

For love to be retrieving, I wouldn't break your heart
The little moments we spend worth its weight in laughs
For this, I'm required to say that
That the way we danced
Makes the days of yesterday never fade in hearts

So hold on now
It's coming
There's a way in our love and it's calling
It is in saying good things to me

Like here comes now
In the moment
And it's real, as real you can call it
Set the dates, books to read
Lips sealed

Celebrating is worth time in our sometimes wayward dream
Forgive me for your blindness, I don't fit this scene
There's a rare art in kindness and it lives within
Put away all your vices and come live between

And hold on now
It's coming
There's a way in our love and it's calling
It is in saying the right things to me

Like here comes now
In the moment
And it's real as real you can call it
Set the dates, books to read
Lips sealed

Sitting here with my eyes closed, I still feel your hug
When we get to safe places that enable us
See the drive is in the heat and not what they say, it's of
We'd been driving all night, wasn't saving us

But hold on now
It's coming
There's a way in our love and it's calling
It is saying the right things to me

Like here comes now
In the moment
And it's real as real you can call it
Set the dates, books to read
Lips sealed

Lips sealed
Lips sealed
Lips sealed
Lips sealed
