

# I've Been Falling

Juke Ross

Meet me in the morning  
I'll have a cold beer beside you  
One glass of coffee and she's all in  
And she don't bribe too

I've been falling, I've been falling  
Falling for you  
You've been calling every morning  
To get me to decide you

Take me to the church and make me worship  
I don't know Christ but I know you  
Don't give to me no heartache  
Let me walk straight  
Let me find the way to find truth

I've been falling, I've been falling  
Falling for you  
You've been calling every morning  
To get me to decide you

Did I find the love  
Did I find the peace  
Did I find the one to love on me who loves on me  
Did I fight the war  
Did I find peace

I've been falling, I've been falling  
Falling for you  
You've been calling every morning  
To get me to decide you
