Wasted Time

Juke Ross

I know that you, you can't deny
We played round fearless in the wild, wild
Holding true until our demise
Which came as quiet as surprise

We gave it our all but in the end we saw the signs
Came crashing down from love off a height
Coffee ain't enough to pick me up, I'm paralyzed
When all is done, I hope you are reminded

Darling, you
Were my life
You said I wasted your time
I know it's hard to lose
Put it on the line
But at least we're not wasting more time, time, time
At least we're not wasting more time

(We're not wasting, we're not wasting
We're not wasting more time)
Darling, you (we're not wasting)
Were my life (we're not wasting)
At least we're not wasting more time (we're not wasting more time)

Why can't we seem to find our spark, uh
We've been slow dancing, stumbling in the dark
We climbed the trees, couldn't reach the skies
So we let go to survive

We gave it our all but in the end we saw the signs
Packed up all our stuff and said goodbye
Sometimes late at night I lay awake, but paralyzed
Wondering all the ways I could've tried

Darling, you
Were my life
You said I wasted your time
I know it's hard to lose
You put it on the line
But at least we're not wasting more time, time, time
At least we're not wasting more time

(We're not wasting, we're not wasting
We're not wasting more time)
Darling, you (we're not wasting)
Were my life (we're not wasting)
At least we're not wasting more time (we're not wasting more time)

Darling, you
You were my life
But you said I wasted your time
I know it's hard to lose
You put it on the line
But at least we're not wasting more time

Darling, you (we're not wasting)
Were my life (we're not wasting)

But you said I wasted your time (we're not wasting more time)
I know it's hard to lose (we're not wasting)
Put it on the line (we're not wasting)
But at least we're not wasting more time (we're not wasting more time) time,
 time, time
At least we're not wasting more time
