

# We Never Die

Juke Ross

Baby, forget 'bout the ground 'cause we're falling  
Maybe if we don't look down we won't see the end  
Can't outrun the morning, it's coming  
I can see the waters rising, feel it on our skin

When daylight ends  
Gonna hold you close  
And breathe you in

Baby, let the sunset blind our eyes  
'Cause I don't wanna see you say goodbye  
We should keep this moment stuck on ice  
Frozen in our memories  
We won't let the stars burn out the sky  
Keep me in your pocket like a knife  
We can make this moment last for life  
Frozen in our memories

Where we never die  
Die...  
Where we never die  
Die...

Now it's calm but the wolves are a calling  
You know they will ruin us darling if we let 'em in  
Baby, this world is a mess and we know it  
Even in the eye of the storm we won't relent

When daylight ends  
Gonna hold you close  
And breathe you in

Baby, let the sunset blind our eyes  
'Cause I don't wanna see you say goodbye  
We should keep this moment stuck on ice  
Frozen in our memories  
We won't let the stars burn out the sky  
Keep me in your pocket like a knife  
We can make this moment last for life  
Frozen in our memories

Where we never die  
Die...  
Where we never die  
Die...

Where we never die...  
Where we never, where we never, where we never  
Where we never die...

Where we never, where we never, where we never  
Where we never die... die...  
Where we never, where we never, where we never  
Where we never die...  
Where we never, where we never

Baby, let the sunset blind our eyes  
'Cause I don't wanna see you say goodbye  
We should keep this moment stuck on ice  
Frozen in our memories  
We won't let the stars burn out the sky  
Keep me in your pocket like a knife  
We can make this moment last for life  
Frozen in our memories

Where we never die...  
Where we never die...
