

## All for Love

Jukebox the Ghost

No one knows  
Why you save  
All your lows  
For the days

Well you were quite  
The love interest last night  
Last night  
Ohhh

And it's all for love  
Yeah, it's all for love  
Alright

You've spent many nights  
Sleeping  
Face down again  
For fear  
For fear

That your heart might live clear  
That you heart might live clear  
And you'd die

And it's all for love  
Yeah, it's all for love  
Alright

Bathed by firelight in this town
