

# Automatic

## Jukebox the Ghost

Got this feeling, it's feeling more than physical  
Intoxicated, but haven't had a drink at all  
When you're close, it gets me high

Love was a losing game, until you came and let me in  
Everything changed on the day that I breathed you in  
When you're close, it gets me high

Ooh, cause it's useless if I fight  
Wouldn't push against the tide  
Cause this instinct is like  
Ooh second nature  
Ooh it's second nature

Like the beat to the music vibrating  
Lose control when the song starts playing  
You can't help the way a heart reacts  
It's automatic when you move it like that  
It's automatic when you move it like that

Got this drive to hold on and take control  
But my heart is saying, "come on man just let it go"  
Take my hands off the wheel

Ooh, cause it's useless if I fight  
Wouldn't push against the tide  
Cause this instinct is like  
Ooh second nature  
Ooh it's second nature

Like the beat to the music vibrating  
Lose control when the song starts playing  
You can't help the way a heart reacts  
It's automatic when you move it like that

It's automatic when you move it like that  
It's automatic when you move it like that

You make it easy babe  
Like the sweetest surrender  
And when I feel this way  
It's like second nature

Ooh, cause it's useless if I fight  
Wouldn't push against the tide  
Cause this instinct is like  
Ooh second nature  
Ooh it's second nature

Like the beat to the music vibrating  
Lose control when the song starts playing  
You can't help the way a heart reacts  
It's automatic when you move it like that  
It's automatic when you move it like that  
It's automatic when you move it like that
