

# Don't Let Me Fall Behind

Jukebox the Ghost

Cause I'm the ghost of your past and mine slowly combined  
And I'm the one with whom memories you can reside  
Come back at anytime

And I'm the one who you can call at anytime  
Where are you? Where am I?  
And when are we going to escape

Say now, say now, say now, say now, say...

Aren't we all alone?  
(Love it, if you've got it leave it)  
Well and far behind, like I am sometimes  
Don't treat me like the past  
Don't let me fall behind

'Cause I'm the one who you've been waiting for, please don't pass me by  
I'll wait, I'll say that I'll do what it takes

Say now, say now, say now, say now, say...

Aren't we all alone?  
(Love it, if you've got it leave it)  
Well and far behind, like I am sometimes  
Don't treat me like the past  
Don't let me fall behind

Don't let me fall behind...

And I scream to the air just give it one more time  
And I scream to the air don't let me fall behind
