

## Drugs

### Jukebox the Ghost

There are days when I just can't win, take another tally from the scoreboard

Wish I had your sunny disposition, wish I hadn't said this all before

I'm breathing heavy, can't take it no more

I see you smiling but you're heading for the door

How are you happy all the time, I have two questions on my mind

What kind of drugs are you on and where can I find them?

What kind of drugs are you on and how can I try them?

I awake from another nightmare, you've had a cup of coffee and a pancake

Oh it must be nice in there, I collect my thoughts and make an earthquake

I'm breathing heavy, can't take it no more

I see you smiling but you're heading for the door

How are you happy all the time, I have two questions on my mind

What kind of drugs are you on and where can I find them?

What kind of drugs are you on and how can I try them?

What kind of drugs are you on and where can I find them?

What kind of drugs are you on and how can I try them?

What kind of drugs are you on and where can I find them?

What kind of drugs are you on and how can I try them?

What kind of drugs are you on and where can I find them?

What kind of drugs are you on and how can I try them?
