

It's No Secret

Jukebox the Ghost

It's no secret that I want you
Let them hear me if they want to
What I gotta do, I'm no fool
Oh I could shout from the rafters
Oh I promise you a happy ever after
Oh but the truth, yeah that'll do
It's no secret that I want you

In the street
Or in the house
In the car with the windows down
Are you embarrassed when I shout it out
Keep the lights on or turn them out
See what I care

It's no secret that I want you
Let them hear me if they want to
What I gotta do, I'm no fool
Oh I could shout from the rafters
Oh I promise you a happy ever after
Oh but the truth, yeah that'll do
It's no secret that I want you

Lay out a blanket in the park
Put on a show underneath those stars
Or in the back of your favorite bar
You got me shouting out hallelujah
You got me telling all my secrets to you
Oh I say baby, it's the truth
I'd even brag to God about you

Come on babe how 'bout we do a little dance
Give a poor old dog a chance
To tell the world about my revelation
I'll take you up to the space station
I guarantee you'll get a standing ovation
They're gonna hear us from space

It's no secret that I want you
Let them hear me if they want to
What I gotta do, I'm no fool
'Cause it's no secret that I want you
