

## Nighty Night

Jukebox the Ghost

Fall to sleep, fall to sleep  
It's you I have long to keep  
But this world will never stay still for you and me

Close your eyes, dream of fire  
And embers that never expire  
The flame that only will burn when we retire

Don't let me fade from your mind, love  
Dimmed by the light of the day  
Out of the darkness we'll find a way

Take my hand, follow me  
We'll dance 'til the starlight retreats  
Our eyes will never be dry until we meet

Don't let me fade from your mind, love  
Dimmed by the light of the day  
Out of the darkness we'll find a way

When the morning arrives  
And the world comes alive  
Then you leave me behind  
And we'll try to survive  
Cross the divide

Don't let me fade from your mind, love  
Dimmed by the light of the day  
Out of the darkness we'll find a way

Fall to sleep, fall to sleep  
It's you I have long to keep  
But this world will never stay still for you and me
