

Olivia

Jukebox the Ghost

Olivia, I hope you sit next to me
Oh Oh Olivia, we can share your last cigarette before you quit
And our eyes will be red from overdoing everything

Oh Olivia, the past is in another galaxy
Oh Oh Olivia, and the future is a mystery

I wanna kiss you tonight as the campfire dies
Olivia, you're the only thing I needed

Olivia, don't make me wait another day
Oh Oh Olivia, I wanna take you to Megunticook Lake
And our hair will be wet and the air will rustle the leaves

Oh Olivia, the past is in another galaxy
Oh Oh Olivia, and the future is a mystery

I wanna kiss you tonight as the campfire dies
Oh Olivia, you're the only thing I needed

You curse like a sailor, heard my laughter on the moon
I gave you another layer and you looked so cute

Olivia, the past is in another galaxy
Oh Oh Olivia, and the future is a mystery

I wanna kiss you tonight as the campfire dies
Oh Olivia, you're the only thing I needed
