

Only Way Out

Jukebox the Ghost

Emma can you see it? Dream of some unpaved road
That we never ever heard of, never ever thought we'd go
I wanna see you when the sun comes up, I wanna give you everyth
ing I've got
So won't you let me in to your paper-
thin heart, give me some time so I can fix it right up

I won't give up on love, don't wanna back down, don't wanna bac
k down
Turn my back on us, tell me, is this the only way out?

Is this the only way out?
If it's the only way out, I'm not going anywhere
Is this the only way out? Is this the only way out?
If it's the only way out, I'm not going anywhere

At the end of the day when there's nothing left to say, don't j
ust say we should end it
I know you're afraid and you know I'm afraid, when it's you and
me babe we get through it

I won't give up on love, don't wanna back down, don't wanna bac
k down
Turn my back on us, tell me, is this the only way out?

Is this the only way out?
If it's the only way out, I'm not going anywhere
Is this the only way out? Is this the only way out?
If it's the only way out, I'm not going anywhere
I'm not going anywhere
