

See You Soon

Jukebox the Ghost

I used to get mad at the small things
Always
I guess that's a part of missing you
Somedays

Wonder where you've been
Wonder where you are
Will I see you soon?

And you've been gone for a long time
I worry
And in my dreams you always stop to say hi
To me
And it's been so long
I'd forgotten
What it's like to say to you

I'll see you sooooon
I'll see you sooooon

Remember when our street felt like
Everything
Remember when your life felt like
It would be never-ending

Sometimes it stays that way
Sometimes it doesn't, but
Remember when it felt that way
And hold on

See you sooooon
See you sooooon
I'll see you sooooon
See you sooooon

See you sooooon, oh
Ooooon
Oh, ohh

Remember the people that we loved
Magic
And those we loved but forgot
Tragic
Time is unbending
I want to be never-ending
And if I say it enough it might come true
I'll see you soooon

See you soon
See you soon
Ohh, see you soon
See you soon
See you soon
