

Still With Me

Jukebox the Ghost

Whoa, whoa, whoa
Tell me do I make you nervous?
'Cause I make me nervous too
I hope I don't rub off on you
Whoa, whoa, whoa
Tell me do you feel uncertain
Because I feel uncertain too
See it from every point of view

Tell me if you're even still with me
Or is it gonna take some convincing?
Standing on the edge and I'm shaking
Will you take the leap?
Counting down the seconds and I'm closing my eyes
I'm bracing for the worst but I know we'll survive
Tell me that you'll always be with me
I promise not to fuck up completely

Whoa, whoa, whoa
Do I make a good impression?
Sometimes I don't impress myself
Why would I impress someone else
Whoa, whoa, whoa
Tell me do I make you anxious?
Because I make me anxious
I hope it's not contagious

Tell me if you're even still with me
Or is it gonna take some convincing?
Standing on the edge and I'm shaking
Will you take the leap?
Counting down the seconds and I'm closing my eyes
I'm bracing for the worst but I know we'll survive
Tell me that you'll always be with me
I promise not to fuck up completely

I never know
I never really know
I never know
I never really know

Tell me if you're even still with me
Or is it gonna take some convincing?
Standing on the edge and I'm shaking
Will you take the leap?
Counting down the seconds and I'm closing my eyes
I'm bracing for the worst but I know we'll survive
Tell me that you'll always be with me
I promise not to fuck up completely

Tell me if you're even still with me
Or is it gonna take some convincing?
Standing on the edge and I'm shaking
Will you take the leap?
Counting down the seconds and I'm closing my eyes
I'm bracing for the worst but I know we'll survive
Tell me that you'll always be with me

I promise not to fuck up completely
