

# The Great Unknown

Jukebox the Ghost

Walking through the heavy light  
The streets are empty  
And you don't feel right  
You didn't want to let yourself down  
So don't be scared to get out  
There's 1,000 voices saying the time is now

So let go  
You're on your own  
There's somethin' waitin' for ya  
There's somethin' waitin' for ya

So let go  
Of the world you know  
There's something' waitin' for ya  
In the great unknown  
The great unknown

Keep your head up  
Don't take your eyes off the road  
No you're never gonna change by doin' what you're told  
You don't wanna let yourself down  
So don't be scared to stand out  
There's 1,000 voices saying the time is now

So let go  
You're on your own  
There's somethin' waitin' for ya  
There's somethin' waitin' for ya

So let go  
Of the world you know  
There's nothin' waitin' for ya  
In the great unknown  
The great unknown

The great unknown  
In the great unknown  
The great unknown  
The great unknown

The time is now  
So let go  
You're on your own  
There's somethin' waitin' for ya  
There's somethin' waitin' for ya

So let go  
Of the world you know  
There's somethin' waitin' for ya  
In the great unknown

So let go  
You're on your own  
There's somethin' waitin' for ya  
There's somethin' waitin' for ya

So let go  
Of the world you know  
There's somethin' waitin' for ya  
In the great unknown
