

# Us Against The World

Jukebox the Ghost

We were born to be crushed by the city into dust  
We were made to play villains just because  
And we don't need forgiveness if we run  
If we run, if we run, if we run, if we run

Let's rewrite the ending the way that it should be  
Let's rewrite the ending the way that it should be

Us against the world  
Us against the world  
Us against the world  
We could run, we could run, we could run, we could run, we could run

So don't look back on the cities that are burning, that's the past  
Though the world keeps spinning so fast  
We could keep up with it if we run  
If we run, if we run, if we run, if we run

Let's rewrite the ending the way that it should be

Us against the world  
Us against the world  
Us against the world  
We could run, we could run, we could run, we could run, we could run

Us against the world

Us against the world  
Us against the world  
Us against the world  
We could run, we could run, we could run, we could run, we could run
