

# Wild Ride

Jukebox the Ghost

Take me in your arms again, a moment of calm and then  
Throw us to the wind  
Throw us to the wind  
Living on the edge of the seasons changing, hit the road and leave it shaking  
Expectations are weighing us down  
Expectations are weighing us down

They'll never change us  
They'll never take us down  
The future's calling us back again

Back on this wild wild wild wild ride

The taste of your adrenaline is keeping me up at night  
Looking for a win  
Looking for a win  
Echoes of a life we left are ringing, every exit sign we missed is singing  
For us to come back  
For us to come back  
For us to come back

Oh they'll never change us  
Oh they'll never take us down  
The future's calling us back again

Back on this wild wild wild wild ride  
Back on this wild wild wild wild ride

Back on this wild wild wild wild ride  
Back on this wild wild wild wild ride  
Back on this wild wild wild wild ride
